Living the Langdon LAIR life

Hello Langdon school families,

Well, the first month of school is over and what a great month it was. We are so impressed with how positive students have been and for adapting so well to the changes this year such as the personal device limits. I also need to share that I received an email from a volleyball coach from another school last night about our Junior A boys team. He felt he needed to share the wonderful sportsmanship he saw from Langdon School. He and his players enjoyed playing a team that was so honest and respectful and were there to have fun. He commended Mr. Legault on his coaching and what a joy it was to play them. Way to go boys! That's a true win.

The end of the month also means we recognized our Dragons of the Month. Staff nominate one student per class who have exemplified LAIR values. These students then choose a Langdon T-shirt or water bottle. It warmed my heart when one boy said "my mom is going to be so proud of me" and another asked if he could put his shirt on right away 😊. Congratulations to:
