

Volunteers needed to Share Career Insights/Activities for Langdon School Career Exploration morning!

When: April 15, 2025

Time: Session 1 8:30-9:45am

Session 2 10:30-11:45am

Who: Grade 6,7,8

We are looking for interested parents/community members to share about their careers to grade 6-8 students for two approximately 75-minute sessions. Groups may include 15-24 students in each session. We know our community has many people with a variety of different job experiences and a lot of insight on the journey to get to where they are today. We also know that not everyone is a teacher or presenter, so you would be partnered with a classroom teacher who would help to structure the presentation. The session would be three parts: a presentation, an active or hands-on learning experience and a time for student questions.

The following are some areas we are looking for:

- Media - reporter, meteorologist, anchor, camera person, producer, etc.
- Mechanics, machine operator
- Plumber, electrician, welder
- Cosmetology, hair stylist
- Law enforcement
- Tech and IT (services, coding, security, gaming, etc.)
- Graphic design, interior design, web design
- Agriculture
- Energy sector
- Lawyer
- Psychologist, psychiatrist

- Pharmacist, optometry
- Entrepreneurship, Sales and Marketing
- Accounting
- Tourism
- Politics
- Healthcare
- Animal care/wildlife

Together, let's get our kids thinking about their exciting futures in the world of work! Students are more engaged and more likely to have academic success when they see relevance in their learning. If you or someone you know (does not have to be a Langdon resident) would like to be a part of this awesome opportunity for our students, please contact **Shannon Storey** (sstorey@rockyview.ab.ca) by **Fri. February 7.**
